Winter 2015

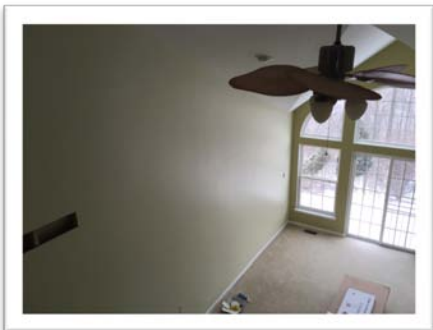

Winter Maintenance Ideas:

Winter will be loosening its grasp on the Northeast and soon we will be thinking about outdoor activities. Now is a good time to start indoor projects so you can turn your attention to the exterior of your home when warmer weather arrives.

Some of those projects and maintenance issues are listed here for easy reference.

Drywall repairs/painting:

One of our recent projects in Coatesville included a 19' vaulted ceiling painting prior to their move in.

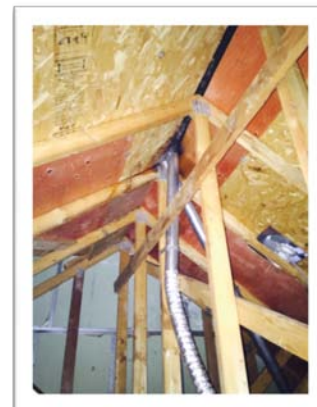

Shower doors and tub/shower caulking:

Our technicians recently installed new tub shower doors for our customer in West Chester. It included painting, new tile floor and base trim as well. Fedor Fabrication supplied the Corian counter tops and cabinets.

Proper venting:

This photo shows what happens when bathroom vents are improperly vented into an attic. It caused a leak into the bathroom, damaged the ceiling. This will lead to mold and mildew and damaged roof materials.

HMC can provide diagnostic services as well for a small fee if you are experiencing a maintenance issue in your home.

Call HMC today to find out more!
